Provided, that no article shall be deemed adulterated within the provisions of this act when intended for export to any foreign country or purchaser, and prepared and packed according to the specifications or directions of the foreign country to which said article is intended to be shipped; but if said article shall be in fact sold or offered for sale for domestic use or consumption, then this proviso shall not except said article from the operation of any of the other provisions of this act. (G. S. 1923, § 3890.)

43. Possession a Misdemeanor.—The having in possession of any preservative compound which is adulterated as herein defined, with intent to sell the same, is hereby prohibited, and whoever shall have in his possession with intent to sell, sell or offer for sale any preservative compound, which is adulterated within the meaning of this act, shall be guilty of a misdemeanor, and, on conviction thereof, shall be punished as hereinafter provided.

Cold Storage.

48. Definition of "Cold Storage."—For the purpose of this act "cold storage" shall mean the storage or keeping of articles of food at or below a temperature above zero of 45 degrees Fahrenheit in a cold storage warehouse. The term "Cold Storage Warehouse" shall mean and include every place, whether a single room or enclosed space, or a group of rooms, that is cooled, mechanically or by any artificial means whatever, including the cooling by use of ice, to or below a temperature of 45 degrees Fahrenheit above zero and in which articles of food are placed and held for thirty days or more.

For the purposes of this act any room or rooms in a cold storage warehouse, leased, controlled and operated apart from the general storage business of such warehouse and to which the general public has not access for storage purpose, is hereby declared a separate cold storage warehouse, subject to licensing and supervision under this act.

Refrigerator cars and ships, when used solely for the transportation as distinguished from the storage of foods shall not be regarded as cold storage ware-

houses, nor shall the ice boxes of retail food establishments and chill rooms used only for the holding of food for periods of less than thirty days, be so regarded. The commissioner shall, however, for the proper enforcement of the law, have the right of inspection of such chill rooms, and, as well, of the food held therein: "Articles of food" shall mean fresh meat and fresh meat products and all fish, game, poultry, eggs, butter, butter substitutes, and lard substitutes. For the purposes of enforcing sanitation and public health and in order to make public all current tariff rates and the total amount of cold storage holdings, all other articles of food not hereinbefore specifically mentioned shall be included and come under the provisions of this act and for these purposes shall be subject to such inspection, rules and regulations as may be prescribed by the Commissioner of Agriculture. (G. S. 1923, § 6207.)

49. Licenses, Fees, etc.—No person, firm or corporation shall maintain or operate a cold storage warehouse without a license so to do issued by the Commissioner of Agriculture. Any person, firm or corporation desiring such license shall make written application to the Commissioner of Agriculture for that purpose, stating the location of the warehouse. The Commissioner of Agriculture, shall cause an examination to be made of said warehouse, and if it be found by him to be in proper sanitary condition and otherwise properly equipped for its intended use, he shall issue a license authorizing the applicant to operate the same as a cold storage warehouse during one year. The license shall be issued upon payment by the applicant of a license fee of fifty (\$50.00) dollars to the Commissioner of Agriculture. (Id. § 6208.)

50. Suspending or Revoking Licenses.—The Commissioner of Agriculture shall also have authority to suspend or revoke the license of any cold storage warehouse man or dealer in cold storage products, whenever it shall be made to appear to him by satisfactory evidence that any such licensee has violated any of the terms or provisions of this act. Such suspension or revocation shall be made only after notice to the licensee and an opportunity to be heard with reference to the grounds for suspension or revocation and such action by the Commissioner of Agriculture shall in no way exempt such licensee from the penalties otherwise provided for in this act. (Id. § 6209.)

51. Records, Reports, etc.—Every licensee, operating under section 2 of this act [6208], shall keep accurate records of the articles of food received in and of the articles of food withdrawn from his cold storage warehouse, and the Commissioner of Agriculture shall have free access to such records at any time. Every such licensee shall submit a monthly report to the Commissioner of Agriculture, setting forth its itemized particulars and the quantity and kinds of articles of food in his cold storage warehouse. Such monthly reports shall be filed on or before the fifth day of each month, and the reports so rendered shall show the conditions existing on the last day of the preceding month reported and a summary of such reports shall be prepared by the Commissioner of Agriculture and shall be open to the public inspection on or before the tenth day of each month. (Id. § 6210.)

52. Inspection.—The Commissioner of Agriculture shall inspect and supervise all cold storage warehouses and make such inspection of articles of food therein as he may deem necessary to secure the proper enforcement of this act, and he shall have access to all cold storage warehouses, together with all related offices, toilet, wash and locker rooms, egg candling rooms, power houses or rooms, loading and unloading platforms, passage ways, approaches, and other spaces, the state of sanitation of which may affect the sanitary conditions of the cold storage foods, or which may require visitation or inspection for the enforcement of any of the provisions of the law, at all reasonable times. The commissioner may appoint such persons as he deems qualified to make any inspection under this act. (Id. § 6211.)

53. Food Which May be Received For Cold Storage.—No article of food intended for human consumption shall be placed, received or kept in any cold storage warehouse unless the same is in an apparently pure and wholesome condition. A food will be deemed "wholesome" only when it is in all respects fit for human consumption. The Commissioner of Agriculture may seize and condemn any articles of food in cold storage warehouses which are found to be unfit for human consumption, and such articles of food shall be destroyed or otherwise disposed of under such conditions as the commissioner shall prescribe. (Id. § 6212.)

54. Marking Articles of Food.—No person, firm or corporation shall place, receive or keep in any cold storage warehouse in this State, articles of food unless the same shall be plainly marked, stamped or tagged, either upon the

container in which they are packed, or upon the article of food itself, with the date when placed therein; and no person, firm or corporation shall remove or allow to be removed such articles of food from any cold storage warehouse unless the same shall be plainly marked, stamped or tagged, either on the container in which it is enclosed or upon the article of food itself, with the date of such removal, and such marks, stamps and tags shall be prima facie evidence of such receipt, and removal, and of the date thereof. It shall be unlawful to remove, deface, add to, alter or change any mark or marks placed upon the container, wrapper or upon the article of food itself, or upon the label or tag attached thereto, which marks are required under the provisions of this act, or in compliance with regulations adopted by the Commissioner of Agriculture or under the provisions of the cold storage act of any other State, without permission of the Commissioner of Agriculture or under his direction.

If the articles of food are stored by the lessee of a room or rooms in a cold storage warehouse, the said lessee shall be responsible for the goods placed by him or his employees in said leased space, and also for the placing upon them of the required marks. Articles of food entered for periods of less than thirty days in a chill room located in cold storage warehouses, but used solely for the storage of articles of food for less than thirty days, shall have affixed their respective lot numbers, but require no "time of entry" marks. Cold storage products, as defined in this act, may be removed from one container to another for the purpose of grading or repacking into more convenient commercial form, either during cold storage or at the time of withdrawal therefrom providing that the old container was properly marked; the lot number or numbers, and all other distinguishing marks, shall be marked also upon the new container. An invoice or bill shall be rendered and delivered by the seller to the purchaser for each sale or consignment in wholesale quantities of articles of food which have been in cold storage for a period of thirty days or more, and a copy of such invoice or bill shall be kept on file at the place where said sale was made; such invoice or bill and copy thereof shall clearly describe the articles of food sold, and in addition shall describe such articles of food as being "cold storage," by using the words "cold storage" in connection with such description as for example, "cold storage meat," "cold storage fish," "cold storage poultry," "cold storage butter," "cold storage eggs," "cold storage tallow," "cold storage lard substitutes," etc., such description to be plainly contained on the invoice or bill on a separate line, printed or stamped in type not smaller than ten point bold face, which line shall contain no other words than as above indicated. When such goods are bought for resale or on consignment, the purchaser shall keep such invoice or bill on file for at least thirty days after all of the goods covered by such invoice or bill are sold. (Id. § 6213.)

55. Length of Storage Period.—No person, firm or corporation shall keep or permit to remain in any cold storage warehouse any article of food which has been held in cold storage either within or without the State for a longer aggregate period than twelve months, except with the consent of the Commissioner of Agriculture, as herein provided.

The commissioner upon written application made and presented during the twelve months' period may extend the allowable storage period for any particular article of food, provided the same upon examination is found to be in proper condition for further cold storage. If the commissioner shall grant the application for such further cold storage period he shall enter an order specifying the period for which such additional storage may be permitted. The commissioner shall make written report on each case in which such extension of storage is granted, including therein the information relating to the reason for the action taken, specifying the kinds and amounts of the articles of food covered by such extension order and the length of time for which the extension is granted, and this report and the order based thereon shall be kept on file in the office of the commissioner at all times open to the public. No extension shall be granted for a longer period than sixty days, but a second extension of not more than sixty days may be granted upon re-investigation and re-examination, provided the entire extension period shall in no event exceed more than one hundred and twenty (120) days.

In case the owner of any article of food in storage in a cold storage warehouse fails or refuses to remove the same before the expiration of the period of time within which the storage may lawfully be continued, then and in such case the warehouseman may sell the same at public auction and for the best price obtainable, first giving ten days' published notice of his intention so to do and account for and pay over to the owner of said articles of food so sold the amount

for which the same is sold after deducting the reasonable expense of such sale and his charges, if any, for the storage of such articles of food. In such case it shall be lawful to retain such articles of food in cold storage for a period of time not exceeding fifteen days after the expiration of time during which such article of food could otherwise be kept in cold storage. (Id. § 6214.)

56. Shortening Storage Period.—Whenever, in the opinion of the Commissioner, the market conditions of food articles, resulting from hoarding or deterioration, is such as to require the release for immediate sale of foodstuffs held in cold storage so that there is immediate market therefor at fair and reasonable prices, the commissioner, by order, may shorten the twelve months' storage period herein provided for as to any particular article of food and may by his order fix and establish a shorter storage period for such article or articles of food and thereupon the articles covered by such order shall, upon the expiration of such shortened storage period be released from storage and removed from such storage warehouse.

If such provision for shortened storage period for any reason shall be invalid, no other provision of this act shall be impaired or held invalid in consequence thereof. (Id. § 6215.)

57. Display of Placards.—It shall be unlawful to sell, or to offer for sale, either at wholesale or retail, fresh meat or fresh meat products, fish, game, poultry, eggs, butter, butter substitutes and lard substitutes which have been held for a period of thirty days or over in cold storage, either within or without the State, without notifying persons purchasing or intending to purchase the same that it has been so held, by the display of a placard, which shall indicate the kind of cold storage products offered for sale by such dealer, which placard shall be furnished at cost by the Department of Agriculture and shall be permanently displayed within the principal salesroom of such place of business. (Id. § 6216.)

58. Dealers' Penalties.—Any place of business, or warehouse, or outbuilding connected therewith, wherein cold storage products are sold or held subject to sale, and all books and records shall be open at all reasonable times to inspection by the Commissioner of Agriculture, and for the purpose of examination of such foods the commissioner may cause any food container to be opened and examined as to its suitability for human consumption.

Any dealer in cold storage products, whether wholesale or retail, violating section 10 of this act [6216] or who shall fail to comply with the rules and regulations of the Commissioner of Agriculture in the enforcement of same shall be guilty of a misdemeanor and shall, upon conviction, be punished for the first offense by a fine of not to exceed twenty-five dollars (\$25.00), for a second offense by a fine not to exceed one hundred dollars (\$100.00) or by imprisonment, or by both such fine and imprisonment. (Id. § 6217.)

59. Returning Food to Cold Storage; Transfer.—After food has been withdrawn from a cold storage warehouse for the purpose of placing it on the market for sale, it shall be unlawful for any person, firm or corporation to return such food or any portion thereof to such cold storage warehouse or to any similar warehouse. Subject to such regulations as may be prescribed by the Commissioner of Agriculture, food may be transferred from one cold storage warehouse or refrigerating plant to another; provided, however, that the total length of time such food shall remain in such cold storage for the purpose of sale shall not exceed the time specified in section 8 of this act [6214]. (Id. 6218.)

60. Making Rules and Regulations.—The commissioner shall have power and it shall be his duty from time to time to make and publish uniform rules and regulations, not inconsistent with law, to carry out and enforce the provisions of this act, which rules and regulations shall be filed in the office of the commissioner and published twice in a legal newspaper of general circulation published at the capital of the State, and from and after the tenth day succeeding the date of the last such publication such rules and regulations shall have the force and effect of law. An affidavit of such publication shall be kept on file in the office of the commissioner. A copy of such rules and regulations, certified by the commissioner, shall be prima facie evidence of the facts therein contained and of the due making and publication of such rules and regulations. (Id. § 6219.)

61. Penalties.—Any person, firm or corporation violating any provision of this act as relating to cold storage warehousing shall be guilty of a gross misdemeanor and shall, upon conviction, be punished for the first offense by a fine of not to exceed five hundred dollars (\$500.00) or by imprisonment in the jail of the proper county for a period of not more than three months, or by both such fine and imprisonment, and for the second or subsequent offense by a fine not to exceed one thousand (\$1,000.00) dollars or by imprisonment in the jail of the proper

county for a period not to exceed one year, or by both such fine and imprisonment. (Id. § 6220.)

62. Fees and Fines, Disposition of.—All license fees and fines accruing through the enforcement of the provisions of this act shall be paid into the State treasury and credited to the State Revenue Fund. (Id. § 6221.)

Milk from which any normal ingredient has been abstracted, or milk containing any substance not a normal constituent thereof, or containing less than three and one-fourth per cent of butter fat, and cream in which there is less than 20 per cent of butter fat, or which contains any foreign thickening or coloring substance, or any abnormal ingredient whatsoever, shall be deemed adulterated; nor shall any article of food be manufactured from unwholesome or adulterated milk or cream except as in the next following section hereof provided. (G. S. 1923, § 3811.)

These requirements, however, shall not apply to skimmed or separated milk delivered to any patron of a creamery who furnishes milk thereto, but all skimmed milk from creameries and all whey from cheese factories so delivered to patrons shall first be pasteurized at a minimum temperature of 145 degrees Fahrenheit for not less than thirty minutes, or at a minimum temperature of 180 degrees Fahrenheit for continuous flow pasteurization. (Id. § 3812.)

The name and number of the license shall be plainly inscribed on both sides of each vehicle in use for the purpose aforesaid, and the license shall be conspicuously posted in each place where such milk or cream is sold, and the making of every sale from a vehicle not so inscribed or from a place where such license is not so posted, shall be deemed the commission of a misdemeanor. Provided that any person may sell or peddle the products of the farm or garden occupied and cultivated by him without obtaining a license therefor. (Id. § 3813.)

66. Licenses Revoked.—The commissioner may withhold a license from any applicant therefor under any provision of this act whom he may deem unworthy, and may revoke any license issued by him to any licensee who has violated the terms thereof, or who has failed to comply with any requirement of this act, or refused or failed to obey his lawful request or direction, and every conviction of the licensee for an offense punishable under this act shall be a sufficient ground for each revocation. (Id. § 3814.)

67. Standard Measure; Tests.—All milk and cream sold or purchased for the purpose of manufacture into butter or cheese, or for the purpose of condensing or drying the same, shall be sold and purchased by weight and payment shall be made therefor upon the basis of milk fat therein contained and not otherwise. The percentage of milk fat in such milk and cream shall be determined by the Babcock test and by employing a standard official method for operating said test, which method shall be that adopted, prescribed and set forth with specifications in detail, in the rules and regulations from time to time made and published by the commissioner under and pursuant to authority therefor conferred by the Minnesota Dairy and Food Law for the purpose of carrying out and enforcing the provisions thereof, which authority hereby expressly is declared to be applicable in the premises.

All glassware, test bottles, pipettes, acid measures, chemicals, scales and other apparatus used in the operation of said test shall conform to the specifications set forth in said method.

Any person who shall use any appliances other than the standard Babcock glassware for measuring or testing milk or cream sold or purchased at prices determined upon the basis of milk fat therein contained, or who shall manufacture or sell Babcock glassware which is not constructed and or graduated in accordance with said specifications, or who shall employ any test other than the Babcock test or any method other than the said standard official method for determining the milk fat content of milk or cream or who shall underread or otherwise falsify or manipulate the reading of the test, or who shall falsely state, certify or use in the purchase or sale of milk or cream a misreading of such test, whether the test or actual reading shall have been made by such person or by any other person, shall be deemed guilty of a misdemeanor. (Id. § 3815, as amended L. 1927, c. 154.)

68. Cans to be Cleaned.—Every person delivering milk, cream or ice cream to any other person, in cans or other vessels shall have such cans or vessels free from any deleterious substance, filth or rust, and in a wholesome condition for containing such milk, cream or ice cream. Every person receiving milk, cream or ice cream in cans or vessels which are to be returned to the sender or seller, shall cause such vessels to be promptly emptied, thoroughly cleansed and immediately returned. (G. S. 1923, § 3816.)

69. Every maker shall keep a record of all quantities of milk and cream received each day and from whom received and the disposition thereof, also of the weight of all cheese and butter made each day and of the number and aggregate weight of all packages of cheese and butter delivered to those furnishing milk and cream for manufacture or otherwise disposed of. Such records shall be exhibited on request of the commissioner and his employees and to all persons furnishing milk and cream to such maker. (Id. § 3817.)

70. Minnesota Brands.—Any person manufacturing in this State, cheese which is wholly and exclusively the product of wholesome and unadulterated milk, or butter which is wholly and exclusively the product of wholesome and unadulterated milk and cream, may label and sell the same as "Minnesota full milk cheese" or "Minnesota pure dairy (or creamery) butter," as the case may be, and may add to such brand or label the name of the county wherein such cheese or butter is made, using for the purpose a numbered stencil brand furnished by the Dairy and Food Commissioner. Such commissioner shall issue to such manufacturer under such regulation as to the custody and use thereof as the commissioner may prescribe, uniform stencil brands for such marking, keeping a register of the number of each and of the name and place of residence of the manufacturer receiving the same.

Any person who shall, without authority of the commissioner, as aforesaid, use any such brand or label, or any person who shall use such brand or label upon cheese or butter below the grade aforesaid, shall be guilty of a misdemeanor. (Id. § 3818.)

71. Inspection of Dairies.—At such times as he may deem proper the commissioner shall cause to be inspected all places where dairy products are made, stored or served as food for pay, and all places where cows are kept by persons engaged in the sale of milk or cream, and shall require the correction of all unsanitary conditions and practices found therein.

Every refusal or neglect to obey any lawful direction of the commissioner or his agent given in carrying out the provisions of this section shall be deemed a misdemeanor. (Id. § 3819.)

72. Local Inspection.—The governing authority of any municipal corporation may by ordinance provide for the inspection of milk, cream and butter sold within its limits and of dairies and dairy herds kept for the production of such milk, cream or butter and may prescribe the terms upon which such sales may be made and fix penalties for violation thereof; but no such ordinance shall conflict with any law of this State or interfere with any power or duty of the Dairy and Food Commissioner or his official subordinates. (Id. § 3820.)

73. Dairy and Creamery Butter.—No person shall manufacture, for sale, or sell any dairy or creamery butter which contains more than 16 per cent of water by weight or less than 80 per cent of butter fat by weight. (Id. § 3821.)

74. Renovated Butter.—No person shall sell any butter made by taking original packing stock or other butter or both and melting the same and drawing off or extracting butter fat and mixing such fat with skimmed milk or cream or other milk product and rechurning or reworking such mixture; or any butter product produced by any process commonly known as boiled process or renovated butter, unless the words "Renovated Butter" shall be plainly branded with bold-faced letters at least three-fourths of an inch in height on the top and sides of each receptacle, package or wrapper in which it is kept for sale or sold. And if such butter is exposed for sale uncovered or not in a receptacle, package or wrapper, then a placard containing the words "Renovated Butter" printed in style and manner as aforesaid shall be attached to the mass of butter in such manner as to be easily seen and read by purchasers. (Id. § 3822.)

75. Process Butter.—No person shall sell any butter made of part cream and part casein and other ingredients by what is known as the "Quinness Patent" or process, or that made by other similar process, whereby the casein of milk and other ingredients are made to imitate or resemble genuine butter made from cream, unless each package or receptacle in which the same is kept for sale or sold shall be stamped or marked "patent butter" on the top and sides thereof with lamp black and oil in letters at least one-fourth of an inch wide and one-half of an inch high; and in addition to such marking the seller at the time of the sale shall give to the purchaser a printed card stating distinctly and correctly the different ingredients contained in said compound. (Id. § 3823.)

76. (Id. § 3827.)

78. Pasteurized Milk and Cream.—Any creamery equipped with machinery and appliances for pasteurizing the milk and cream which it receives may apply to the State Dairy and Food Commissioner for an inspection by him of such machinery and appliances; and upon such application made showing such fact and the wish of the creamery to use such process in the manufacture of butter, the State Dairy and Food Commissioner shall cause such inspection to be made.

If such machinery and appliances are sufficient for effective use in so pasteurizing the milk and cream received, the said Dairy and Food Commissioner may issue a certificate to such creamery, authorizing it so long as it shall keep such machinery and appliances in use and shall pasteurize such milk and cream at a minimum temperature of 145 degrees Fahrenheit for not less than thirty minutes, or at a minimum temperature of 180 degrees Fahrenheit for continuous flow pasteurization, to label its products "This product is from pasteurized milk and cream," and such creamery may label its products so long as it continues to so pasteurize all its milk and cream used in the manufacture of such product. Labeling contrary to this section shall be a misdemeanor. (Id. § 3828.)

79. License For Testing Apparatus.—No person shall operate a milk or cream testing apparatus to determine the percentage of butter fat in milk or cream for the purpose of purchasing the same either for himself or another without first securing a license from the Dairy and Food Commissioner of this State, or from one of his duly appointed assistants or inspectors, authorizing such person to so operate such tester. (Id. § 3829.)

80. Application For License; Non-resident Not to Secure License.—Any person desiring to secure such license shall make application therefor on a blank to be prepared and provided by the Dairy and Food Commissioner, and such applicant, before such license may be issued, shall pass a satisfactory examination in person and prove by actual demonstration that he is competent and qualified to properly use such tester and make an accurate test with the same. Provided, however, that no person who is not a resident of the United States shall be licensed under the provisions of this act. (Id. § 3830, as amended L. 1925, c. 164.)

81. License Fee and Term.—Such license shall be issued for a period ending on the thirty-first day of December following, and a fee of \$1.00 shall be paid for such license by the licensee upon the issuance thereof.

The testing of each lot of milk or cream by any unlicensed person shall constitute a separate offense except in case such unlicensed person shall have valid reasons to appoint a substitute for a period of not to exceed three days, subject to the approval of the Dairy and Food Commissioner. (G. S. 1923, § 3831.)

82. Butter and Cheese Brands.—Any person manufacturing butter in the State of Minnesota may use the stamp, brand or label hereinafter provided when authorized by the Dairy and Food Commissioner. (Id. § 3845.)

83. Minnesota Brands.—The Dairy and Food Commissioner may authorize the use of the following stamp, brand or label for butter manufactured in the State of Minnesota. If not up to grade, notify Minnesota Dairy & Food Commission. No. (insert factory number)." (Id. § 3846.)

84. Dairy and Food Commissioner May Authorize Brands in Certain Cases.—The commissioner may authorize the use of such stamp, brand or label only by such persons manufacturing butter who comply with the following rules:

(a) Cream must be received from all patrons at least three times per week from the first day of May up to and including the thirtieth day of September in each year, and not less than two times per week from the first day of October to and including April thirtieth thereafter.

(Id. § 3.)

141e. Commissioner of Agriculture to Issue License—Bonds.—License to engage in the business of a dealer at wholesale within the State of Minnesota shall be issued by the commissioner to such reputable persons as shall apply therefor, pay the prescribed fee and comply with the conditions herein specified, to wit:

(a) The application shall be in writing, accompanied by the prescribed fee, and under oath and shall set forth the place or places where the applicant intends to carry on the business for which the license is desired, the estimated amount of business to be done monthly, the amount of business done during the preceding year, if any, the full names of the persons constituting the firm, in case the applicant is a copartnership, the names of the officers of the corporation and where incorporated, if a corporation, and a financial statement showing the value and character in a general way of the assets and the amount of liabilities of the applicant.

(b) The applicant shall execute and file with the commissioner a bond to the State of Minnesota with sureties to be approved by the commissioner, the amount and form thereof to be fixed by the commissioner, conditioned for the faithful performance of his duties as a dealer at wholesale, for the observance of all laws relating to the carrying on of the business of a dealer at wholesale, for the payment when due of the purchase price of produce purchased by him, for the prompt settlement and payment of all claims and charges due the State of Minnesota for services rendered or otherwise, for the prompt reporting of sales, as required by law, to all persons consigning produce to the licensee for sale on commission and the prompt payment to the persons entitled thereto of the proceeds of such sales, less lawful charges, disbursements and commissions. Such bond shall cover all wholesale produce business transacted in whole or in part within the State of Minnesota, and the license, or a certified copy thereof, shall be kept posted in the office of the licensee at each place within the State where he transacts business. All licenses shall expire May 31 of each year. The fee for each license shall be five dollars, and for each certified copy thereof one dollar. Whenever the licensee shall sell, dispose of or discontinue his business during the lifetime of his license, he shall at the time such action is taken notify the commissioner in writing, and shall upon demand produce before the commissioner a full statement of all assets and liabilities as of the date of transfer or discontinuance of said business.

(c) The applicant shall file with the commissioner a schedule of his commissions and charges for services in connection with produce handled on account of or as agent for another. (Id. § 4.)

141f. Commissioner May Require Additional Bonds.—The commissioner, whenever he is of the opinion that any bond theretofore given by any licensee is inadequate for the proper protection of the public, may require the licensee to give additional bonds in such amounts as from time to time he may determine and direct,

with sureties to be approved by the commissioner and conditioned as heretofore set forth. For the purpose of fixing or changing the amount of such bonds the commissioner may require from a licensee verified statements of his business, and if the licensee fails to furnish such information or to furnish a new bond when directed by the commissioner so to do, the commissioner may forthwith suspend and after ten days' notice and opportunity to be heard revoke his license. (Id. § 5.)

141g. Persons Damaged May Sue on Bonds.—Any person claiming himself to be damaged by any breach of the conditions of a bond given by a licensee as hereinbefore provided may enter complaint thereof to the commissioner, which complaint shall be a verified statement of the fact constituting said complaint. Upon filing such complaint in the manner herein provided, the commissioner shall investigate the charges made, and at his discretion order a hearing before him, giving the party complained of notice of the filing of such complaint and the time and place of such hearing. At the conclusion of said hearing the commissioner shall report his findings and render his conclusion upon the matter complained of to the complainant and respondent in each case, who shall have 15 days following in which to make effective and satisfy the commissioner's conclusions. And if such settlement is not effected within the time aforesaid, either party, if aggrieved by any condition of the bond may upon first obtaining the approval of the commissioner commence and maintain an action against the principal and sureties on the bond of the party complained of as in any civil action, provided no action against the bondsmen of a licensee shall in any instance be maintained without the written approval of the commissioner, which shall be attached to and made a part of the original complaint in such action. Upon commencing such action a copy thereof shall be filed in the office of the commissioner. The record of the hearing before the commissioner shall be competent evidence in any court having jurisdiction. If such licensee has become liable to more than one person by reason of breaches of the conditions of the bond and the amount of the bond is insufficient to pay the entire liability to all persons entitled to the protection of the bond, the penalty of the bond as against the sureties shall be apportioned among the several claimants. In all cases where the liability of the licensee exceeds the amount of his bond, the commissioner shall commence an action for the recovery of the full amount of said bond and when recovered such amount shall be deposited with the commissioner who shall in the same action, subject to the approval of the court, pass upon and allow or disallow all claims which may be presented to him for payment or apportioned thereunder, and to effect the purposes herein may employ counsel, the expense thereof to be paid out of the amount recovered on such bond. The commissioner may require a deposit prior to the establishment of such inspection service in amount equal to the costs thereof as estimated by him, and he may further require that such deposits be renewed from time to time in such manner that a permanent account shall be maintained, sufficient at all times to pay the costs of such inspection service for a period of not less than 15 days in advance. Moneys placed in the hands of the commissioner for the purpose aforesaid shall be placed in a separate account to be known as the "produce inspection account" and the sums such persons shall contribute to each account shall be kept separate on the books of the commissioner. No moneys shall be paid from said account for inspection services rendered to any person in excess of the moneys on hand accredited to his account. Said money shall be deposited in the State treasury in the same manner as other departmental receipts are deposited and shall be credited to the account herein created and shall be paid out only upon order of the commissioner. Whenever any such agreement shall terminate by action of either party thereto, the commissioner shall withdraw from such account the full amount of all such bills payable for services rendered, and shall return to the depositor

any moneys remaining to his credit at the time such agreement terminates. Any sums deposited in the State treasury under the provisions of this act are hereby appropriated for the purposes set forth herein. (Id. § 7.)

(Id. § 9.)

141k. (Id. § 10.)

141l. (Id. § 11.)

141m. Complaints of Shippers to be Made to Commissioner.—Whenever a shipper after demand therefor, shall have received no remittance or report of sale, or shall be dissatisfied with the remittance, sale or report, he may complain in writing to the commissioner, who shall investigate the matter complained of. (Id. § 12.)

141n. Commissioner to Investigate Complaints.—Said commissioner is authorized to receive complaints against any persons dealing in, shipping, transporting, storing or selling produce, and shall have authority to make any and all necessary investigations relative to the handling of or storing, shipping or dealing in produce at wholesale, and he shall at all times have access to all buildings, yards, warehouses, storage and transportation facilities in which any produce is kept, stored, handled or transacted. For the purpose of enforcing the provisions of this act, the commissioner shall have the authority, upon complaint being filed with him for any alleged violation of the provisions of this act or the regulations issued thereunder, or upon information furnished by an inspector of the Department of Agriculture, to forthwith suspend and upon ten days' notice and opportunity to be heard, revoke and cancel any license issued by him, and the commissioner shall have the power to revoke or cancel the license of any dealer who shall violate any of the provisions of this act. Such report shall be prima facie evidence of the matters therein contained. All parties disobeying the orders of subpoenas of said commissioner shall be guilty of contempt as in proceedings in District Courts of the State and may be punished in like manner. (Id. § 13.)

141o. Rules and Regulations.—The commissioner shall have power and it shall be his duty from time to time to make and publish uniform rules and regu-

(Id. § 16.)

141r. Enforcement of Act.—The Commissioner shall be charged with the enforcement of the provisions of this act and of the rules and regulations made and published thereunder. Upon complaint made it shall be the duty of the county attorney to prosecute all cases arising in his county for violation of this act or of the rules or regulations made and published thereunder. (Id. § 17.)

141s. When Act Effective.—This act shall take effect and be in force from and after May 31, 1927. (Id. § 19.)

141t. Unfair Discrimination; Definitions.—The following words, terms and phrases shall, for the purpose of this act, be given the meanings hereinafter subjoined to them. (L. 1927, c. 252, § 1.)

141u. Same.—(a) The term "person" means an individual, firm, copartnership, corporation or association.

(b) The term "farm products" as used in this act shall mean and include butter, milk, cream, butter fat, cheese and other dairy products, honey, eggs, poultry and all live stock and products of live stock such as wool, mohair, hides and meats. (Id. § 2.)

141v. Unfair Discrimination Prohibited.—Any person engaged in the business of buying any such farm products for manufacture or sale thereof, who shall discriminate between different sections, localities, communities, cities or villages of this State by purchasing any such farm products at a higher price or rate in one locality

than is paid for such farm products of the same kind, quality and grade by such person in another section, locality, community, city or village, after making due allowance for the difference, if any, in the actual cost of transportation from the locality of purchase to the locality of manufacture or sale, shall be deemed guilty of unfair discrimination, which is hereby prohibited and declared to be unlawful. It shall not be unfair discrimination for any person, to pay, in any section, locality, community, city or village, a price equal to that actually paid on the same day by any bona fide competitor in such place for farm products of the same kind and grade, provided such price is paid in good faith effort to meet such competition, and the burden of proving such facts shall be upon the defendant. (Id. § 3.)

141w. Evidence of Violation of Act.—Proof that any person has paid a higher price for any such farm products in one section, locality, community, village or city than in another, after due allowance for the cost of transportation has been made, shall be prima facie evidence of a violation of this act. (Id. § 4.)

141x. Enforcement of Act.—The Commissioner of Agriculture, his deputy, assistants, inspectors, agents and employees shall enforce the provisions of this act and in so doing shall have all the powers conferred upon them and each of them by the provisions of Chapter 21A, General Statutes, 1923, and all other laws heretofore enacted. (Id. § 5.)

141y. Commissioner of Agriculture to Investigate Complaints.—If complaint shall be made to the Commissioner of Agriculture that any person is guilty of unfair discrimination defined by this act, he shall investigate such complaint and the Commissioner of Agriculture may also upon his own initiative investigate whether or not this statute has been violated, and in either event for that purpose he may subpoena witnesses, administer oaths, take testimony, and if in his opinion sufficient ground exists therefor he may prosecute an action in the name of the State, in the proper court, to annul the act of incorporation or the existence of a corporation engaged in such business practice. If any corporation is adjudged by any court guilty of unfair discrimination as defined by this act such court may vacate the charter or revoke the authority of such corporation to do business in this State and may permanently enjoin it from transacting business in this State. (Id. § 6.)

141z. Penalty.—Any person violating the provisions of section 3 of this act shall, upon conviction thereof, be fined not less than \$50 for each offense, or, in default of the payment of such fine, by imprisonment in the county jail for not less than three months nor more than one year. (Id. § 7.)

141aa. Prosecuting Officers May Enforce Act.—The authority hereby extended to the Commissioner of Agriculture shall be considered as duties only and shall not be construed to preclude any prosecuting officer or any party interested from instituting proceedings, civil or criminal, for the enforcement of any of the provisions of this act. (Id. § 8.)

141bb. Application of Act.—Nothing in this act shall be construed as repealing any other act or part of any other act, but the remedies herein provided shall be cumulative to all other remedies provided by law. (Id. § 9.)

Grain.

142. Grain Testing Laboratory at Agricultural College.—There shall be equipped and maintained under the direction and authority of the board of regents of the State University in some suitable building now situated upon the campus of the Agricultural College at St. Anthony Park, a laboratory for the purpose of testing wheat and other grain as to their physical and chemical properties and commercial value, and for the testing of flour made from wheat so tested as to its bread-making qualities. (G. S. 1923, § 3130.)

143. Tests, How Made; Monthly Bulletin.—Such tests shall be made by competent instructors in chemistry who are now or who may be hereafter employed as such instructors at the said College of Agriculture, and these tests shall be so made as to be educational in character and the results thereof shall be published in the regular monthly bulletin, or in a special bulletin if deemed necessary; provided, that all tests asked for and requested by the State Railroad and Warehouse Commission, the Grain Inspection Department, and the State Grain Inspection Board (boards of appeals) shall be made free of charge. (Id. § 3131.)

144. Board of Grain Appeals to Establish Minnesota Grades.—The two boards or a majority of the six members thereof shall meet annually in joint session on or before September 15, and establish the grades of all grain subject to State inspection to be known as the "Minnesota Grades," and all grain received

at any public warehouse shall be graded accordingly. Such grades shall not be changed before the next annual meeting without the concurrence of at least five members of such boards. In establishing the grades, in addition to the physical qualities of the grain, there shall be taken into consideration the milling and bread-producing quality of all grain products used as human food. Each of said boards shall determine the grade and dockage, if any, of all grain in all cases where appeals from the decisions of the chief inspector have been taken and for such purpose they may request fresh samples of such grain to be furnished direct to the board having the case under consideration. Dockage shall be considered as being of two classes: First, that having value, and second, that having no value. The two boards shall annually, at the joint sessions at which Minnesota Grades are established, ascertain and determine what dockage contained in grain is of value and publish a list thereof in connection with the publication of said Minnesota Grades. Any foreign content of the grain shall not be considered in establishing the grade. They shall also render assistance and advice to the chief inspector of grain so as to enable him to instruct the deputy inspectors of grain under his jurisdiction in accordance with the decisions and work of the boards. Whenever grain containing dockage of value is sold to any public, local warehouse or mill, terminal warehouse, or to any flour mill located in St. Paul, Minneapolis or Duluth, or any other point within the State of Minnesota, which is now or may hereafter be designated as a terminal point, such sale shall not be considered to include such dockage of value, but such dockage shall be paid for at its market value or shall be returned to the vendor of said grain at the option of the vendee. At the time of establishing "Minnesota Grades" it shall be the duty of said Boards of Grain Appeal to establish such rules and regulations as shall be deemed necessary for the carrying out of the provisions and purposes of this act, and to publish said rules in connection with the publication of the said "Minnesota Grades." (Id. § 5035, as amended L. 1925, c. 258.)

145. Standard Samples.—The Chief Inspector shall furnish standard samples of grain of each Minnesota grade to any grain warehouseman in the State, upon request and payment of the actual cost thereof. (G. S. 1923, § 5040.)

146. Certificates of Inspection to Set Forth Test of Weight.—Such inspector shall inspect and grade all grain received at or shipped from any terminal warehouse in carload lots or boatload lots, and give a certificate of the inspection to the persons entitled thereto. Their decision shall be conclusive as to the grade and dockage of such grain, and the certificate shall be evidence thereof, unless changed upon re-inspection and appeal. Every certificate of inspection so issued shall, in addition to other facts, set forth the test weight per bushel of the grain so inspected. (Id. § 5041.)

147. Appeals.—Any owner, consignee or shipper of grain, or any warehouseman, who is dissatisfied with the inspection of grain by any chief or deputy inspector, may appeal from his decision to the nearest grain inspection board by filing notice of such appeal with the chief deputy inspector and paying a fee, to be fixed by the commission, which shall be refunded if the appeal is sustained. Such deputy inspector shall forthwith transmit the notice to said board of appeals. The decision of said board, fixing the grade of such grain shall be final. (Id. § 5042.)

148. Standard Weights to be Used.—No person purchasing, selling or storing grain in any public local grain warehouse in this State, as the same is now or may be hereafter defined by law, shall use any other measure for such grain than the standard bushel, and no other number of pounds shall be used or called a bushel than the number of pounds provided by law as the standard weight of the kind of grain in question; provided, however, that during the months of October and November not exceeding eighty pounds and during the months of December and January not exceeding seventy-two pounds may be so used as the standard bushel of new ear corn. (Id. § 5067.)

149. Pooling to be Prohibited.—It shall be unlawful for any person, firm or corporation engaged in the buying, selling or handling of grain in any public local grain warehouse in this State, or for the local agent in charge of such warehouse, or any other agent of the person, firm or corporation, operating the same, to enter into any contract, agreement, combination or understanding, with any other person, firm or corporation, owning or operating any other public local grain warehouse at any railway station, their agent or agents, whereby the amount of grain to be received or handled by said warehouses, at such station, shall be equalized or pooled between said warehouses, or whereby the profits or earnings derived from said warehouses shall be divided or pooled, or apportioned in any manner, or whereby the price to be paid for any kind of grain at such station shall be fixed

or in any manner affected, and each day of the continuance of any such agreement, contract or understanding shall constitute a separate offense. (Id. § 5068.)

150. Penalties For Violations.—Any person, firm or corporation, or any officer or agent of any person, firm or corporation, who shall violate the provisions of section 10 of this act [5068] shall be guilty of a misdemeanor and shall be punished by a fine of not less than fifty dollars or more than one hundred dollars, and by imprisonment in the county jail for not less than thirty days, or more than three months. The railroad and warehouse commission of this State shall have the power, and it shall be their duty, whenever they find, after a hearing, that the provisions of this act have been violated by any person holding a license to conduct a public local grain warehouse in this State, to revoke and annul such license, and in such case no new license shall be granted to the person whose license is so revoked nor to any one either directly or indirectly engaged with him in said business, for the period of one year. (Id. § 5069.)

151. Railroad and Warehouse Commission to Supervise Grain Markets.—The commission shall exercise general supervision over the grain interests of the State and of buying and selling, handling, inspection, weighing and storage of grain, and of the management of public warehouses and public grain markets, including chambers of commerce, boards of trade and grain exchanges, shall investigate on complaint, or upon its own motion, all cases of fraud and injustice in grain trade, unfair practices, or unfair discrimination in the buying or selling of grain, and shall have the power to compel the discontinuance of such unfair practices or unfair discrimination, and shall make all proper rules and regulations for carrying out and enforcing the provisions of this chapter, and of all laws of the State relating to such subjects. The expenses of supervision and investigations in carrying out the provisions of this section shall be paid from the Grain Inspection Fund. (Id. § 5084, as amended L. 1925, c. 266.)

152. Shipper to Affix Tags.—Every shipper of grain shall fasten upon the inside of each car shipped by him a card giving the number and initials or other distinctive mark of such car, the date of shipment, and the exact weight of the grain in such car, as claimed by the shipper. If he fail so to do, the official weight shall be prima facie evidence of the quantity of grain shipped in such car. (G. S. 1923, § 5085.)

153. Violation of Provisions of This Subdivision.—Any person who shall violate any of the provisions of this subdivision,* where no specific penalty is prescribed, shall be guilty of a gross misdemeanor, and punished by a fine of not less than fifty dollars nor more than five hundred dollars. Any corporation which shall violate any such provision shall forfeit to the State, for each violation, not less than fifty dollars nor more than five hundred dollars. (Id. § 5087.)

154. Grain Includes Flaxseed.—The term "grain" wherever used in this subdivision shall be held to include flaxseed. (Id. § 5088.)

155. Samples to be Furnished.—The Railroad and Warehouse Commission is hereby authorized to furnish, to persons entitled thereto, when requested by them, samples of grain from any or all cars from which samples are taken for inspection and grading. (Id. § 5089.)

156. Breaking of Seals.—No person shall knowingly break the seal on any car of grain subject to State inspection prior to the delivery thereof, except the employees of the railroad and warehouse commission, and the owner of said grain or his authorized agent under rules prescribed by the Railroad and Warehouse Commission. (Id. § 5090.)

157. Unlawful Discrimination in Sale or Purchase of Grain Prohibited.—Any person, firm, copartnership or corporation engaged in the business of buying grain, either for himself or others, who shall with the intention of creating a monopoly or destroying the business of a competitor, discriminate between different sections, localities, communities or cities of this State, by purchasing such grain at a higher price or rate in one locality than is paid for grain of same grade and condition by said purchaser in another locality after making due allowance for the difference, if any, in actual cost of transportation from the locality of purchase, to the locality of manufacture, use, or distribution, shall be deemed guilty of unfair discrimination and upon conviction thereof shall be punished by a fine not exceeding \$500.00, or by imprisonment in the county jail not to exceed six months. (Id. § 5096.)

158. Fumigating Grain to Change Color; Penalty.—Any person who shall sell or offer for sale, or for shipment and sale, any barley or other grain, which shall have been subjected to fumigation, or other treatment by sulphur or other

(G. S. 1923, § 3832.)

(Id. § 3833.)

167. For the purpose of this act, a commercial cannery is defined to be a place or buildings where vegetables and or fruits are packed in hermetically sealed cans, where sterilization by heat is used, and the products placed on the market for general consumption as human food; but shall not include private homes where farmers and or others or State or county institutions may pack or preserve vegetables and or fruits for their own use and make occasional sales of the surplus thereof. At such times as the commissioner may deem proper, he shall cause to be inspected all commercial canneries where vegetables and or fruits are packed

(Id. § 3835, as amended L. 1927, c. 177, § 1.)

Such license shall be granted under such reasonable rules and regulations as the commissioner may prescribe. Upon filing application for a license the commissioner shall issue a temporary permit, to be in effect only until a license shall have been issued or until the applicant shall have been notified of the denial of such application. Upon the filing of such application the commissioner shall cause an investigation to be made of the conditions of such cannery, for the purpose of determining whether or not a license should be granted. The application shall be in the form prescribed by the commissioner and shall give such information as he may require. Each application shall be accompanied by a license fee of one dollar. All licenses shall expire on the 31st day of December, next following the date of issue but may be renewed without inspection, on or before the first day of May of each year, upon application and payment of the licensee fee. The commissioner after reasonable notice and opportunity to be heard may by order revoke any license when the licensee has fully complied with all the provisions of the Minnesota Dairy and Food Law, or any rule or regulation promulgated, issued and published by the commissioner relating to the operation of commercial canneries; and he may reinstate any license when the licensee has fully complied with all the provisions of said law, rules and regulations. Inspector of Canneries.—The Dairy and Food Commissioner shall appoint and assign, upon the passage of this act, an efficient and experienced food inspector who has passed required examinations, national or State, and who has a thorough knowledge of the canning business, either as processor, superintendent or as an inspector of food manufacturing factories, whose duties it shall be, in addition to his general work as food inspector, to have this inspection of canneries in charge, as required in this act; to visit and inspect canneries as often as may be required, superintend the work of and instruct inspectors stationed at canneries and make reports thereof to the commissioner. The commissioner may allow the person appointed as such inspector, a sum of not to exceed \$600.00 annually as additional compensation for his services, and may whenever he in his judgment deems it proper for the good of the canning industry, arrange for annual scoring prize contests, on products of Minnesota canneries and for such purpose expend not to exceed \$200.00 annually. (G. S. 1923, § 3838.)

172. Special Inspectors.—The commissioner shall, whenever he deems it necessary, furnish efficient inspectors at canneries while in operation, whose duties shall be to see that the canneries where assigned shall at all times comply with all food laws, national and State and all sanitary laws, rules and regulations; to superintend and see that nothing but proper raw materials, articles or substances are used with the necessary sterilization by heat in the packing and preservation of food. The commissioner, his inspector in charge of canneries or any local inspector assigned at such canneries shall be the judge of the quality of any raw material, articles or other substances used in canning, packing or preserving vegetables and/or fruits, and may, whenever they deem it necessary, condemn any such raw materials, articles or substances, as being unfit for use in the packing, canning or preservation of foods. (Id. § 3839, as amended L. 1927, c. 177, § 3.)

173. Rules and Regulations For Canneries.—Any and all power and authority in this act conferred upon the commissioner shall be applicable for the purpose of prescribing rules and regulations for the operation of canneries, and proper labels, standards and definitions of grades on products of canneries. (G. S. 1923, § 3840.)

174. Notice of Intention to Operate.—Any person owning or operating a canning factory shall, by written notice on or before June 1st of each year, notify

the commissioner whether or not such factory is to be operated during that season or year, giving kinds and varieties of products to be canned or manufactured that season. At least ten days prior to the beginning of operation of any canning factory, the commissioner shall be notified in writing of such intended operation. On or before November 15th of each year the owner, manager or superintendent of such factory shall furnish the commissioner, his agent, or inspector with a report giving such information concerning the factory as the commissioner may require. (Id. § 3841.)

175. Certificate of Inspection.—The commissioner shall furnish to each commercial cannery that shall have fully complied with the provisions of this act, a certificate of inspection that such cannery has been inspected and has complied with all laws, rules and regulations applying thereto. The commissioner may authorize the proprietor of such cannery to use the following or similar label or brand on his products: "Packed under regulations of, and in cannery inspected by Minnesota Dairy and Food Department," or such other label, trade-mark, device, brand or guarantee certificate, as the commissioner may designate or adopt. (Id. § 3842, as amended L. 1927, c. 177, § 4.)

176. Assessments.—The commissioner is hereby authorized and directed to collect from each commercial cannery, as herein defined, an assessment for inspection and services furnished, and for maintaining a bacteriological laboratory and employing a bacteriologist and such assistants as he may deem necessary, and a sufficient number of special inspectors to be assigned to canneries. The assessment to be made on each commercial cannery, for each and every packing season, shall not exceed one-half cent per case on all foods packed, canned or preserved therein, nor shall the assessment in any one calendar year to any one cannery exceed \$1,000. The commissioner may, whenever he deems it advisable, graduate and reduce the assessment to such sum as is required to furnish the inspection and laboratory services rendered. The assessment made and the sums so collected shall be deposited in the State treasury, as other departmental receipts are deposited, but shall constitute a separate account to be known as the "commercial canneries, inspection account," which is hereby created, and together with moneys now remaining in said account, is hereby set aside and appropriated as a revolving fund, to meet the expense of special inspection, laboratory and other services rendered, as herein provided. The amount of such assessment shall be due and payable on or before December 31 of each year and shall bear interest after that date at the rate of 7 per cent per annum, and if not paid on or before January 15, following, a penalty of 10 per cent on the amount of the assessment shall also be added and collected. (G. S. 1923, § 3843, as amended L. 1927, c. 177, § 5.)

177. Penalties.—Whoever shall, without permission of the commissioner, use any brand, label or device authorized by the commissioner, or who shall fail to furnish reports containing information required or within the time specified or who shall fail to obey any lawful direction of the commissioner given by him in carrying out the provisions of this act, or shall use any raw materials, articles or substances, forbidden to be used in canning, packing or preserving vegetables and or fruits, or shall violate or fail to comply with any of the provisions of this act or the rules or regulations made hereunder, shall be deemed guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than \$25 nor more than \$100 or by imprisonment for not less than 30 days nor more than three months for each offense. County Court Shall Pay for Support of Patient.—Such hospital shall collect, from the county of such patient's residence, by warrant of the superintendent of the hospital drawn on the county court, the same expense for the support of such patient as is allowed by law for the support of insane patients; and all fees of the probate court and fees and mileage of the sheriff shall be the same as in like proceedings in the inquisition and care of insane patients, and shall also be paid out of the county treasury by order of the county court; but all such expenses, fees and mileage shall be a charge upon any estate of the patient subject to appropriation as hereinabove provided, and for the payment of which by the curator into the county treasury, said probate may and shall, from time to time upon application of the county court, make order for the sale and transfer of title of such estate as in case of estates of insane persons under guardianship, and for payment into such county treasury. (Id. § 5.)

General Food and Drug Law.

1. Adulterated or Misbranded Drugs and Food; Unlawful Manufacture or Sale.—It shall be unlawful for any person, persons, firm, or corporation, within this State to manufacture for sale, within this State, sell, offer for sale, or have within his or their possession, with the intent to sell within this State, any drugs or article of food which is adulterated or misbranded within the meaning of this act. The term "drug," as used in this act, shall include all medicines or preparations recognized in the United States Pharmacopœia or National Formulary for internal or external use, and any substance or mixture of substances intended to be used for the cure, mitigation, or prevention of disease of either man or animals. The term "food," as used in this act shall include all articles used as food, drink, confectionery, or condiment by man or animals, whether simple, mixed or compound. (Pol. C. 1921, § 2578.)

2. What Deemed Adulterated.—For the purposes of this act, an article shall be deemed as adulterated, in case of drugs:

First. When a drug is sold under or by a name recognized in the United States Pharmacopœia or National Formulary, if it differs from the standard strength, quality or purity, as determined by the test laid down in the United States Pharmacopœia or National Formulary, official at the time of investigation; provided, that no drug shall be deemed to be adulterated under this provision if the standard of strength, quality or purity be plainly stated upon the bottle, box, or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopœia or National Formulary.

Second. If its strength or purity fall below the professed standard or quality under which it is sold.

In the case of foods:

First. In the case of confectionery, if it contains terra alba, barytes, talc, chrome yellow, or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt, or spirituous liquor or compound or narcotic drug.

Second. If any substance or substances have been mixed with it so as to reduce, or lower, or injuriously affect its quality or strength.

Third. If any substance has been wholly or in part substituted for the article.

Fourth. If any valuable constituent has been wholly or in part abstracted from it.

Fifth. If it contains any proportion of a filthy, diseased, decomposed, putrid, or rotten animal or vegetable substance, whether manufactured or not, or in the case of milk, if it is the product of a diseased animal.

Sixth. If it is mixed, colored, coated, polished, powdered, or stained in a manner whereby damage or inferiority is concealed, or whereby it is made to appear better or of greater value than it really is.

Seventh. If it contains any added poisonous or other added deleterious ingredient.

Eighth. If it contains any added antiseptic or preservative substance, except common salt, saltpeter, cane-sugar, beet-sugar, vinegar, spices, or in smoked foods, the natural products of the smoking process, or other harmless preservatives whose use is authorized by the State Board of Health, and no preservative shall be used in greater quantity than the rules and regulations of the State Board of Health shall designate. (Id. § 2579.)

3. Duty of Peace and Health Officers to Seize Unwholesome Food Offered For Sale.—It shall be the duty of all peace or health officers to seize any animal

*CITATIONS: "Pol. C. 1921" and "Pen. C. 1921" refer to the Political and Penal Codes, respectively, of the Revised Codes of Montana, 1921, published by authority of Chapter 122, Laws of 1921. "L." refers to the session laws of the year cited.

carcass or parts of carcasses, or any domestic or wild fowl, eggs, game, fish, or other food product found to be unwholesome, and which are intended for sale or offered for sale for human food, or which have been slaughtered or prepared, handled or kept under unsanitary conditions as herein defined, or as the rules and regulations of the State Board of Health may designate, and shall deliver the same forthwith to and before the nearest police judge or justice of the peace, together with all information obtained; and said police judge or said justice of the peace shall issue warrants of arrest for all persons believed to have violated any provision of this act, and said cause shall be tried at an early date thereafter. The said police judge or said justice of the peace shall immediately drench the unwholesome food brought before him with kerosene, and require the owner thereof to immediately dispose of the same in a sanitary manner, or he may, in his discretion, order the unwholesome food rendered into grease and tankage. (Id. § 2586.)

4. How Term "Misbranded" Shall be Understood.—The term "misbranded," as used herein, shall apply to all drugs, or articles of food, or articles which enter into the composition of food or drugs, the package or label of which shall bear any statement, design, or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to the State, territory, or country in which it is manufactured or produced, unless the word "process" or "type," in plain, legible and obvious English print type, or script immediately follows the State, territory, country, locality, or brand designated. For the purpose of this act, an article shall be deemed to be misbranded;

In the case of drugs:

First. If it be an imitation or offered for sale under the name of another article.

Second. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents differing in quality or quantity from the original contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha, or beta eucaine, chloroform, cannabis indica, chloral hydrate, acetanilide, phenacetine, antipyrine, or any derivative of [or] any preparation of any such substance contained therein; provided, that said requirements as to statement of contents shall not be operative until on and after January 1, 1912, and provided, further, that the requirements of this section shall not apply to medical prescriptions written by physicians and surgeons, dentists, or veterinary surgeons, nor to extemporaneous preparations dispensed by druggists, nor shall the provisions of this section be construed as prohibiting legally qualified physicians and surgeons, dentists, and veterinary surgeons from administering drugs to patients under their care.

In the case of foods:

First. If it is an imitation of or offered for sale under the distinctive name of another article.

Second. If it be labeled or branded so as to deceive or mislead the purchaser, or purport to be a foreign article when not so, or if the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, acetanilide, phenacetine, or antipyrine, or any derivative or any preparation of any such substance or substances contained therein; provided, that such statement shall not be required as to articles of food in the hands of wholesalers or retailers on or prior to January 1, 1912.

Third. If in the package form, and the contents are stated in terms of weight or measure, they are not plainly and correctly stated on the outside of the package.

Fourth. If the package containing it, or its label, shall bear any statement, design, or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular; provided, that an article of food which does not contain any added poisonous or deleterious ingredient shall not be deemed to be adulterated or misbranded in the following cases:

First. In the case of mixtures or compounds which may be now or from time to time hereafter become known as articles of food, under their own distinctive names, and heretofore known to the consumer, and not an imitation of or offered for sale under the distinctive name or brand of another article, if the name be accompanied on the same label or brand with the statement of the place where said article has been manufactured or produced; provided, further, for the purposes of this act, a drug or food shall not be deemed misbranded, [when] marked, labeled, or tagged with the distinctive trade or commercial name heretofore known to the consumer.

Second. In case of articles labeled, branded, or tagged so as to plainly indicate that they are compounds, imitations, or blends, and the word "compound," "imitation," or "blend," as the case may be, is plainly printed on the package in which it is offered for sale; provided, that the term blend as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring or flavoring; and provided, further, that in cases of spirituous liquors the term like substances shall be construed to mean pure distillates of grain, or pure distillates of fruit and grain; and provided, further, that nothing in this act shall be construed as compelling or requiring proprietors or manufacturers of proprietary foods, which contain no unwholesome added ingredients to disclose their trade formulas except so far as the provisions of this act may require to secure freedom from adulteration or misbranding. (Id. § 2587.)

5. When Dealer Not to be Prosecuted; Guaranties.—No dealer shall be prosecuted under the provisions of this act for selling or offering for sale any article of food or drugs, as defined herein, when the same is found to be adulterated or misbranded within the meaning of this act, in the original, unbroken package in which it was received by said dealer, when he can establish a guarantee, signed by the wholesaler, jobber, or agent, or other party residing in the United States from whom he purchased such article, or if a proper printed guarantee of the manufacturer with his address be upon the package or container, to the effect that the same is not adulterated or misbranded in the original unbroken package in which the said article was received by said dealer, within the meaning of this act, designating it, or within the meaning of the food and drug act, enacted by the Senate and House of Representatives of the United States of America in Congress assembled June 30, 1906. Said guarantee to afford protection must contain the name and address of the party or parties making the sale of such article to such dealer, or of the manufacturer thereof as herein specified, and in such case said party shall be amenable to prosecution, fines, and other penalties which would attach in due course to the dealer under the provisions of this act. (Id. § 2588.)

6. License From State Board of Health For Manufacturers and Purveyors of Food and Drinks.—It shall be unlawful for any person, persons, firm, or corporation to conduct any restaurant, cafe, lunch counter, dining car, manufacturing bakery, manufacturing confectionery, meat market, cannery, soda fountain, ice cream parlor, soft drink establishment or bottling works without having a license issued by the State Board of Health of Montana; provided, that no license shall be required for a dining room, cafe, or lunch counter that is operated in connection with and under the same management as a hotel that holds a license from the State Board of Health, or that is subject to the payment of a license fee under the provisions of chapter 36, Session Laws of 1919 [2485-2498], an annual fee of two dollars shall be required for each license. Licenses shall be made to expire on the last day of December of the current year in which they are issued. Applications for licenses shall be made on blanks supplied by the State Board of Health. No license shall be issued to any place of business that is conducted in a grossly unsanitary manner.

If as a result of inspection by an authorized representative of the State Board of Health, it is found that any licensed place of business is not conducted within a reasonable degree of compliance with the rules and regulations of the State Board of Health, the license may be canceled by the secretary of the State Board of Health; provided, that any licensee whose license is so canceled shall be entitled to a hearing before the State Board of Health to show cause, if any, why his license should not be canceled. In such case licensee must make written request to the secretary of the State Board of Health for a hearing within five days after notice has been received that his license has been canceled.

Fees collected by the State Board of Health for licenses issued shall be transmitted to the State Treasurer and placed to the credit of the general fund as provided for by law. (Id. § 2589.)

7. Duties and Powers of State Board of Health.—It shall be the duty of the State Board of Health to enforce the provisions of this act. They shall, through their secretary and through local and county health officers, make all necessary investigations and inspections in reference to all food and drugs, and for this purpose the State, county, and local health officers shall be food and drug inspectors for their respective districts; each local and county health officer shall make regular inspections as the rules and regulations of the State Board of Health may direct, and such special inspections as said Board of Health may from time to time order made, and he shall make such reports relative to conditions existing within his district at such times and in such manner as the State Board of Health may direct. Should any health officer fail, neglect, or refuse to make any such regular or special inspection or fail to make any report in the manner and at the time designated by

the State Board of Health, or should he make a false report of any condition that may exist within his district, the State Board of Health shall notify the mayor of the city or town, in the case of a local health officer, or the chairman of the board of county commissioners, in the case of a county health officer, of such negligence on the part of such health officer, and said State Board of Health may, in their discretion, order the removal from office of such delinquent health officer, and when such an order is issued by the State Board of Health, the mayor of the city or town, in the case of a local health officer, or the board of county commissioners, in the case of a county health officer, shall immediately declare the office of health officer vacant, and shall appoint another competent and legally qualified physician and surgeon to fill the office.

The State Board of Health shall adopt all needful rules and regulations for the thorough and uniform enforcement of the provisions of this act throughout the State, and shall adopt and promulgate rules and regulations relative to the sanitary management of all places designated in section 2589 of this code, and they shall adopt rules regulating the minimum standards for foods and drugs, defining specific adulterations and declaring proper methods of collecting and examining all drugs and articles of food, and the violation of any such rule or regulation shall be punished on conviction, as set forth in section 2594 of this code; provided, that such rules and regulations made and promulgated by the State Board of Health shall at all times conform to the rules and regulations of the National Food and Drug Commission made under the Food and Drugs Act of June 30, 1906.

It shall be the duty of the State Board of Health, at the instance of any person, firm, or corporation, or on their own volition, to examine, analyze, and determine the purity, branding, and labeling of any food or drug placed upon the market or offered for sale in the State of Montana, and if found legal, they shall certify to the individual, firm, or corporation manufacturing, selling, or offering for sale such food or drug, that such food or drug is legal.

No prosecution shall follow until such time as the individual, firm, or corporation has been notified by the State Board of Health wherein any food or drug fails to meet the requirements of the rules and regulations of the State Board of Health, and such time to remedy the failure as the State Board of Health may rule.

All State, local, and county health officers are hereby authorized to enter any premises where any article of food or drug is sold, offered for sale, manufactured, cooked, stored, or treated in any way, for the purpose of inspecting such premises and the manner in which such food or drug is handled. (Id. § 2591.)

Whoever hinders, obstructs, or in any way interferes with an inspector, or other officer or agent appointed hereunder, in the performance of his duty, shall, upon conviction, be fined in any sum not less than ten dollars nor more than one hundred dollars. For the purpose of this act the following definitions shall be adopted:

A creamery shall be defined as a place where the milk or cream furnished by three or more persons, selling the same independently of each other, is used for manufacture into butter for commercial purposes.

A cheese factory shall be defined as a place where milk furnished by three or more persons, each selling the same independently of the others, is made into cheese for commercial purposes.

An ice cream factory shall be defined as any place where ice cream is made for sale, where the minimum output is 200 gallons per annum, or where it is made for thirty days or more in each year.

It shall likewise be the duty of each and all of the establishments in this section named to render to the Commissioner of Agriculture, within the first three days after the last day of each quarterly period, a full report of the amount of butter, cheese, ice cream or other dairy products handled or manufactured during the preceding three months. The first quarter of any year shall begin with the first day of the year. (Id. § 3569.)

61. Babcock Test; Regulation of Use; Fee.—The Babcock test is hereby adopted as the official dairy test for use in the State of Montana.

Any person operating the Babcock test in any creamery or cheese factory, or other place where milk or cream is bought and paid for on the basis of its fat content, shall be required to pass such examination as the Commissioner of Agriculture shall prescribe, upon successful completion of which examination he shall receive a certificate signed by said commissioner, or his authorized agent, stating his competency to operate said test.

A fee of two dollars shall be paid to the commissioner by the applicant for said certificate. Said money shall be turned in by said commissioner to the State Treasurer for the use and benefit of the general fund of the State.

The following is the method which shall be adopted as the standard for the operation of the Babcock test for the State of Montana and shall be used by persons, firms, or corporations paying for milk or cream on the basis of the butter fat content of such commodity or commodities.

The milk from which the sample to be tested is taken shall be thoroughly mixed by pouring from one vessel to another three times and by stirring with an instrument suitably [suitable] for the purpose. The sample to be tested shall consist of eighteen grams by weight, or seventeen and six-tenths cubic centimeters, as measured in a standard pipette. The standard strength of the acid used for all testing of milk or cream shall be indicated by the specific gravity, which shall be not less than one and eighty-two hundredths, nor more than one and eighty-three hundredths, as determined by a standard hydrometer. After properly mixing the sample of milk and acid, in the test bottle, centrifuging shall be for periods of five minutes, two minutes, and one minute. After the first period of centrifuging, water shall be added, sufficient to fill the test bottle up to the base of the neck and after the second centrifuging, water shall be added sufficient to raise the fat in the neck of the test bottle to near the top of the graduation. The water used to fill the test bottles shall be at a temperature of one hundred and forty degrees Fahrenheit or more. After the last period of centrifuging, the test bottles shall be immersed in a bath prepared for the purpose, which shall consist of water at not less than one hundred and thirty-five degrees nor more than one hundred and forty degrees Fahrenheit, and they shall remain immersed for at least ten minutes and the temperature of the bath shall be kept between the temperatures before named for the full period of immersion. The test shall be read immediately after the test bottles are taken from the bath. Dividers shall be used to determine the length of the fat column in the neck of the test bottles.

The reading shall be from the bottom of the lower meniscus to the top of the upper meniscus of the fat column.

The method of testing cream shall be the same as for milk, except that all samples of cream tested shall be eighteen grams by weight, and the reading of the fat column in the neck of the test bottle shall be from the bottom of the lower meniscus to the bottom of the upper meniscus. If glymol is used to destroy the

upper meniscus, the reading shall be from the bottom of the lower meniscus to the bottom of the glymol on the top of the fat column.

If the operator prefers, he may use the alternate method of testing cream, hereinafter described. Before taking the samples of cream for testing, the whole body of cream shall be thoroughly mixed, as by the preceding method. All samples of cream taken for testing shall be homogenous samples of the whole body of cream from which they are taken and shall be eighteen grams by weight. After properly mixing the acid and sample of cream to be tested, the test bottle shall be filled to the base of the neck with water at a temperature of not less than one hundred and eighty degrees Fahrenheit, placed immediately in the testing machine and centrifuged for not less than five minutes. The test bottle shall then be filled to near the top of the graduation with water, at one hundred and eighty degrees Fahrenheit, replaced in the machine and centrifuged for two minutes or more. The water bath shall then be used and the reading made in the same way as in the preceding method. A standard thermometer shall be used for determining temperatures in making the Babcock test.

All test bottles, pipettes and other glassware used in connection with the Babcock test, where the fat forms a basis for the payment of the product, shall be handled and calibrated by the Commissioner of Agriculture or his deputies, as often as the commissioner may prescribe, such testing or calibrating to be done on the premises where such glassware is used. All bottles used for the purpose of making the Babcock test shall be standard bottles, and shall be designated as such by the word "standard" stamped thereon. All glassware found to be not standard in capacity shall be seized and destroyed by the Commissioner of Agriculture or his authorized agent.

No owner, manager, agent or employee of a cheese factory, creamery, or other place where the fat content of milk or cream is determined by test, shall falsely manipulate or under-read or over-read the Babcock test or any other contrivance used for determining the quality of milk or cream or make any false determination of the said Babcock test or other test.

Any person, firm or corporation, who shall operate a buying or collecting station, where milk or cream is bought or collected for the purpose of shipment to some other place, or to be sold or transferred to any creamery or any other manufacturing plant for the purpose of being made into butter or other dairy products, shall first secure a license from the State Department of Agriculture, Labor and Industry to operate such station. Upon and after the first day of May, 1923, all stations within the State of Montana where cream or milk is bought, or collected, for shipment or sale, shall have the following requirements:

The location shall be on well drained ground at least fifty feet from any outside contaminating influence. If within a building where any other business is conducted, it shall be separated from the other rooms of the building by a tight wall or walls, and if there is an opening for passage between the room used as the station and the rest of the building, there shall be two doors, one at each end of a vestibule or entry which shall be at least six feet in length. The doors shall be of wood, or wood and glass, and sufficient to keep all odors or dust from entering the station from any other part of the building. No station for the purpose of purchasing, storing or handling milk or cream shall be situated inside of, nor within fifty feet of any blacksmith shop, garage, grain elevator, livery stable, or any other building, corral, hog-pen, or other place which can be denominated a contaminating influence; nor shall any oil, gasoline or any other liquid or substance of a contaminating nature be kept within fifty feet of such station. The room used shall not be used for any purpose other than a milk or cream receiving station and shall at no time contain anything except the milk or cream received there, the cans or other receptacles in which it is shipped, and such furniture and equipment as may be necessary to efficiently conduct the business of such station. No gasoline engine shall be used or kept inside the room where the milk or cream is stored or kept. The engine or boiler shall be kept in a room partitioned off from the room where the milk or cream is kept or stored. A sanitary sink or tank with suitable drain shall be provided in which to wash cans and other utensils used in conducting the business of the station; and a waste jar in which to empty the contents of the test bottles after the testing has been completed shall also be used. Dogs, cats, or other pet animals, shall not be permitted to enter the room where the milk or cream is stored, and pieces of screens secured by hoops, or other devices, shall be used on the top of the cans containing milk or cream while in storage, to prevent mice, insects or dirt from falling in. The floor of the room where the milk or cream is kept or stored shall be of cement or concrete, with a drain which shall be connected with a sewer, or with a pipe which shall convey the waste water under ground to a point not less

than fifty feet from the station. It shall be provided with windows containing at least twenty square feet of glass for each one hundred square feet of floor space. Between May first and November first, of each year, screen doors shall be provided and in use on all outside doorways, and during that time, screens shall be on all windows in the room. There shall be provided a cooling tank, large enough to hold all of the cream or milk received or stored, and in which there shall be at all times an amount of cold running water, or ice water, sufficient to thoroughly cool all milk or cream stored there. There shall be provided a steam boiler large enough to furnish sufficient steam to thoroughly sterilize cans, or a stove or other heating plant equipped with a tank, the minimum capacity of which shall be ten gallons, to supply sufficient boiling water to thoroughly scald the same; and all cans in which milk or cream is received, shall be thoroughly washed in clean water with a sterilizing or cleansing powder added, and either sterilized with live steam or scalded with boiling water before being returned to the patron. A rack shall be provided on which cans not immediately returned to the patron shall be inverted for the purpose of drying and airing, after being sterilized by steaming and scalding.

Acting upon the report of an inspector employed by the State Department of Agriculture, Labor and Industry, the Commissioner of Agriculture, or his authorized agent, may order any creamery, cheese factory, or cream station found to be not kept in a sanitary condition, to be closed; and it shall be closed forthwith and kept closed until such time as an inspector employed by the State Department of Agriculture, Labor and Industry shall report that the sanitary conditions of such creamery, cheese factory, or cream station, are satisfactory. Any person or persons operating any creamery, cheese factory, or cream station, before receiving notice from the Commissioner of Agriculture or his authorized agent to open the same, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than twenty-five dollars, nor more than two hundred and fifty dollars, or by imprisonment in the county jail for not less than ten days, nor more than thirty days, or by both such fine and imprisonment. In addition to such fine and imprisonment, any person or persons operating any creamery, cheese factory or cream station after receiving notice from the Commissioner of Agriculture, or his authorized agent, to close the same and before receiving notice from the Commissioner of Agriculture, or his authorized agent, permitting opening of the same, shall pay an additional fine of twenty-five dollars for each day such creamery, cheese factory or cream station is illegally operated. The Commissioner of Agriculture or any of his authorized agents shall have the right to enter any creamery, factory, building, store, receiving station, railroad depot, express office or other place where dairy products, or substitutes therefor, are manufactured, sold or kept in storage or while in transit from one place to another, for the purpose of inspection of such dairy products or substitutes for the same, to obtain samples of the same for testing or analysis. It is expressly provided that such products shall include all butter, cheese, ice cream and other dairy products, all substitutes for dairy products and all substances made in imitation of the same, except whole milk, skimmed milk, evaporated or condensed milk or powdered milk, or any product of which the word "milk" either alone or in connection with any other word or words is used to designate the same, or any liquid or substances made or sold or offered for sale as a substitute for, or made in imitation of the same.

Whosoever shall refuse to allow the inspection herein provided for, or shall in any way hinder or obstruct the officers of the State Department of Agriculture, Labor and Industry in the proper performance of their duties as described in the provisions of this act, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than twenty-five dollars, nor more than one hundred dollars or by imprisonment in the county jail for not less than ten days, nor more than thirty days, or by both such fine and imprisonment. (Id. § 3570.)

62. Standards of Measure For Dairy Products.—The standard measure of capacity for milk shall be the gallon containing two hundred thirty-one cubic inches, the half gallon shall contain one hundred fifteen and five-tenths cubic inches, and the quart one-fourth as much as the gallon, and the pint one-half as much as the quart.

The standard measure for the sale of butter and cheese in the State of Montana shall be sixteen ounces (avoirdupois weight) to the pound, when wrapped or put in container, exclusive of the wrapper or container. Where weight and measure are stated in pounds or ounces, they shall be exclusive of the wrapper or other container, and each pound shall contain sixteen ounces, each ounce four hundred and thirty-seven and one-half grains. All packages of butter weighing less than sixteen ounces avoirdupois, shall be of a net weight which is a binary sub-multiple of sixteen ounces, which is eight ounces, four ounces, or two ounces. Any person,

persons, firm or corporation, selling or offering for sale, any article of dairy products as a pound, or any multiple thereof, the net weight of which is less than sixteen ounces, or the proper multiple thereof, to represent the number of pounds sold or offered for sale, shall be guilty of a misdemeanor; provided, a reasonable variance be permitted, and that tolerance shall be established by rules and regulations made by the Commissioner of Agriculture, in accordance with the provisions of this act.

Butter sold in the State of Montana whether manufactured on a farm or in a creamery, must have the maker's name clearly written or printed in a conspicuous place on the outside of the package in which it is sold, and upon each pound package of butter so sold or offered for sale the words "net weight sixteen ounces" or "net weight one pound" shall appear. (Id. § 3571.)

63. Sanitary Regulation of Dairy Products.—All milk, butter, cheese, condensed milk, ice cream, or any dairy products shipped into Montana for sale or use, must be produced under the same sanitary regulations and requirements as are required for the production of such products in the State of Montana. The Commissioner of Agriculture shall have authority to require a sworn statement relative to the sanitary production of milk and other dairy products shipped into Montana, but produced outside of the State of Montana, and if such products are not produced under similar sanitary regulations and statutes, as required for the production of such products within the State of Montana, they shall not be sold, given away, traded, or used in the State of Montana. (Pol. C. 1921, § 3572.)

64. Oleomargarine.—Every person who manufactures for sale, or offers or exposes for sale, or has in his possession with intent to sell any article or substance in resemblance of butter or cheese, not the legitimate product of the dairy, and not made exclusively of milk or cream, or into which the oil or fat of animals not produced from milk enters as a component part, or into which the oil or fat of animals not produced from milk has been introduced to take the place of cream, must distinctly stamp, brand, or mark in some conspicuous place upon every firkin, tub, or package of such article or substance, in plain letters not less than one-fourth inch square each, the word "oleomargarine," or the words "imitation cheese," as the case may be; and in the retail sale of such article or substance, in parcels or otherwise, the seller must deliver to the purchaser therewith a printed label, bearing the plainly printed words "oleomargarine" or "imitation cheese," plainly marked as aforesaid. (Pen. C. 1921, § 11248.)

65. Same.—Every person dealing in the article or substance described in the next preceding section, and every hotel, restaurant, or boarding-house keeper using such article or substance in his business must continuously and conspicuously keep posted up in not less than three exposed positions, in and about his place of business, a printed notice in the following words: "oleomargarine" or "imitation cheese" "sold (or used) here," which notice must be plainly printed with letters not less than two inches square each, and must, upon the furnishing the article or substance to his customers or guests, if inquiry is made, distinctly inform each of them that the article furnished is not butter or cheese, the genuine product of the dairy, but is oleomargarine or imitation cheese. (Id. § 11249.)

66. Penalty.—Every person and every officer or agent of any corporation who violates any of the provisions of the last two preceding sections is punishable by imprisonment in the county jail not exceeding one month, or by fine not exceeding one hundred dollars. (Id. § 11250.)

Advertisement Limitations.—It shall be unlawful for any person, firm, or corporation, within the State of Montana, to use in connection or association with the sale, advertisement, or exposure for sale, of oleomargarine or any other substance intended to be used as a substitute for butter, made wholly or in part from animal or vegetable fats other than the fat of pure milk or cream, the words, "dairy," "creamery," "butter," "cream," or any picture of a cow or cows, or the name of any of the breeds of cattle. (L. 1925, c. 187, § 1.)

68. Violations and Penalty Therefor.—Any person, firm, or corporation, or any agent of either, violating any of the provisions of this act, shall be deemed guilty of a misdemeanor and be punished by a fine of not less than \$50.00 (fifty dollars), nor more than \$500.00 (five hundred dollars), or by imprisonment for not less than thirty days nor more than six months, or by both such fine and imprisonment. (Id. § 2.)

Cleansing and Returning to Owners of Containers.—Every company, firm, corporation or person delivering milk, cream or ice cream to any other company, firm, corporation or person, in cans or other vessels, shall have such cans or vessels at all times free from any deleterious substance, filth or rust, and in a clean and wholesome condition for containing such milk, cream or ice cream.

Every company, firm, corporation or person receiving milk, cream or ice cream at the place of final destination in cans or vessels which are to be returned to the sender or seller, shall cause such cans or vessels to be thoroughly cleansed and immediately returned after being emptied. The term "final destination" as used in this act shall include both the final consignee of any milk, cream or ice cream, and also any receiving station or other agent or handler by whom such milk, cream or ice cream is transferred from the original containers thereof. (L. 1925, c. 153, § 1.)

70. Penalties.—Any person violating any of the provisions of this act shall be deemed guilty of a misdemeanor and be punished by a fine of not less than \$10.00 (ten dollars), nor more than \$50.00 (fifty dollars). (Id. § 2.)

Revoking of License to Make Babcock Test.—The Commissioner of Agriculture, Labor and Industry is hereby authorized and empowered to revoke the license of any person licensed to make a Babcock test of milk or cream under the laws of the State of Montana, who shall fail to fully comply with the provisions of said law or with any of the rules and regulations of the Department of Agriculture, Labor and Industry relating to said Babcock test. (L. 1925, c. 165, § 1.)

72. Representative Samples; What Constitute; Marked or Labeled; Protected From Heat and Cold; Kept, How Long; How Opened.—All persons, firms or corporations in the State of Montana purchasing milk or cream for manufacture, sale or shipment, and paying for the same on the basis of the butter fat contained therein, as determined by the Babcock test, shall take, or cause to be taken, in such places where the said milk or cream is purchased or tested, a representative sample of all such milk or cream, and if any be left on hand after a shipment is made, a representative sample of this shall likewise be taken. Such sample shall be not less than two ounces avoirdupois in weight and shall be immediately transferred to a clean and dry sample jar and properly sealed to prevent evaporation and the escape of any of the contents thereof. All samples of milk or cream so taken shall be plainly marked or labeled and such mark or label shall be entered upon the records of the purchaser to correspond with the name of the person, or persons, from whom such purchase was made, together with the weight of the milk or cream, if any, which is left on hand after shipment is made. Said samples shall then be protected from extremes of heat and cold and held until 5:00 P. The person filling such prescription shall write or indicate thereon the date of filling and the date when and the name and address of the person to whom he delivers the drug so prescribed. No one shall be given a permit to prescribe liquor unless he is a physician duly licensed to practice medicine and actively engaged in the practice of such profession. Every permit shall be in writing, dated when issued, and signed by the Secretary of State or his authorized agent. It shall give the name and address of the person to whom it is issued and shall designate and limit the acts that are permitted and the time when and place where such acts may be performed. No permit shall be issued until a verified written application shall have been made therefor, setting forth the qualification of the applicant and the purpose for which the liquor is to be used.

Not more than a pint of spirituous liquor to be taken internally shall be prescribed for use by the same person within any period of ten days and no prescription shall be filled more than once. Any pharmacist filling a prescription shall at the time indorse upon it over his own signature the word "canceled," together with the date when the liquor was delivered, and then make the same a part of the record that he is required to keep as herein provided.

Every physician who issues a prescription for liquor shall keep a record, alphabetically arranged in a book prescribed by the Secretary of State, which shall show the date of issue, amount prescribed, to whom issued, the purpose or ailment for which it is to be used and directions for use, stating the amount and frequency of the dose; providing nothing herein contained shall be construed as authorizing the issuance of permit to prescribe, sell or transport beer or any malt beverage containing more than one-half of one per centum of alcohol by volume, but the transportation, sale or prescription or use of any beer or malt beverage containing more than one-half of one per centum of alcohol by volume is hereby expressly forbidden. Should the permit be revoked by the Secretary of State, the permittee may have a review of his decision before a court of competent jurisdiction in the manner provided in section 11051 of this code. During the pendency of such action such permit shall be temporarily revoked. (Id. § 11054.)

Provided, that when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically or by maceration in water or otherwise and directions for the removal of such preservative shall be printed on the covering of the package, the provisions of this chapter shall be construed as applying only when said products are ready for consumption.

On receipt of the application, the department shall cause an examination to be made into the sanitary condition of said plant or plants, and if found to be in a sanitary condition and otherwise properly equipped for the business of cold storage, the department shall cause a license to be issued authorizing the applicant to operate a cold storage or refrigerating warehouse for and during the period of one year. All licenses shall expire on the 31st day of December of the year in which they are issued. The license shall be issued upon payment by the applicant of a license fee of five dollars to the Treasurer of the State, subject to the rules of the Secretary of Finance. (Id. § 7499.)

28. Unsanitary Places Prohibited; Inspection.—In the event that any place or places, or any part thereof, covered by a license, under the provision of this article; shall at any time be deemed to be in an unsanitary condition, it shall be the duty of the department to notify licensee of such condition; and upon the failure of the licensee to put such specified place or places, or the specified part thereof, in a sanitary condition within a designated time, it shall be the duty of the department to prohibit the use under its license of such specified place, or part thereof, as it deems in an unsanitary condition until such time as it may be put in a sanitary condition. (Id. § 7500.)

29. Records; Reports.—Every person licensed to operate a cold storage or refrigeration warehouse shall keep an accurate record of the receipts and the withdrawals of the articles of food, and such foodstuffs as may have been previously held in storage, and an accurate record of the length of time of such storage and the department shall have free access to these records at any time. Every such person shall submit a quarterly report to the department setting forth in itemized particulars the quantity of food products held in cold storage. Such quarterly reports shall be filed on or before the sixth day of January, April, July and October of each year, and the reports so rendered shall show the conditions existing on the first day of the month in which the report is filed. The department shall have the authority to require such reports to be made at more frequent intervals than the times herein specified, if in its judgment more frequent reports shall be needed in the interest of a proper enforcement of this article, or for other reasons affecting the public welfare. The reports herein required shall be verified and sworn to by some managing officer or agent of the cold storage plant or refrigerating warehouse. (Id. § 7501.)

Such serial number shall refer to proper records kept by said person licensed to operate said cold storage or refrigerating warehouse; and every such person shall keep an accurate and full record of said serial lot number of such deposit, together with a complete record showing from whom said articles in storage were received, the number and kind of packages and kind of food, and the place in said cold storage or refrigerating warehouse where said goods are deposited, and shall keep an accurate and full record of the date of the receipts and withdrawals of such deposits and shall not remove said deposit from the place designated in said records without making a record thereof. When such food is withdrawn from such storage or refrigerating warehouse, each container thereof shall then in like manner be marked with the true dates of entry and withdrawal. Such markings shall be done under the directions of the operator of the cold storage or refrigerating warehouse so as to readily and certainly identify each article so deposited. Where the owner of foods or operators of the cold storage or refrigerating warehouse shall desire to withdraw such goods for consignment and consumption without this State, such operator may deliver such goods to a carrier for shipment without the State without marking thereon the dates of entry and withdrawal as herein required; but said operator shall keep an accurate record of all such withdrawals that are not so marked and make a full and complete report thereof to the Department of Agriculture. The length of time for which further storage is allowed shall be specified in the order granting the permission. (Id. § 7505.)

34. Notice to Purchasers.—No person shall sell, or offer or expose for sale articles of food which have been held in cold storage, without notifying persons purchasing or intending to purchase the same that they have been so kept, nor represent or advertise as fresh goods articles of food which have been held in cold storage. (Id. § 7506.)

35. Released Food Not Returned.—No person shall return to cold storage any article of food that has once been released from such storage and placed on the market for sale to consumers; but nothing in this section shall be construed to prevent the transfer in good faith of goods from one cold storage or refrigerating warehouse to another. (Id. § 7507.)

36. Inspection Fees.—The operators of cold storage warehouses shall pay an annual inspection fee of [to]the Department of Agriculture of ten dollars for each cold storage place having a refrigerator space of less than fifty thousand cubic feet, and twenty-five dollars for each storage place having a refrigerator space of fifty thousand cubic feet, and less than one hundred thousand cubic feet, and fifty dollars for each such storage place having a refrigerator space of one hundred thousand cubic feet or more. Cheese having less than fifty per cent of butter fat in the dry matter shall in addition have plainly printed or stamped upon the cheese itself and package the words "skim milk cheese;" (k) Cheese is the sound, solid, and ripened product made from milk or cream by coagulating the casein thereof with rennet, pepsin, or lactic acid, with or without the addition of ripening ferments and seasoning or added coloring matter and contains in the water-free substance, not less than fifty per cent of milk fat and cheese known as American or Cheddar cheese, not more than thirty-eight per cent of moisture, and cheese known as Brick cheese not more than forty-two per cent of moisture; except that Emmenthaler cheese, commonly known as domestic Swiss cheese, shall contain in the water-free substance not less than forty-three per cent of milk fat. No person shall sell, offer or expose for sale, exchange or deliver any milk or cream, to be used as such for human consumption, which has been obtained from any animal not examined and tuberculin tested, within one year immediately prior thereto by a duly licensed and authorized veterinarian and certified by him to be free from disease; provided, when such animal is a part of a herd located within an area established and maintained for the inspection, examination and testing of cattle for tuberculosis by the Department of Agriculture, such animal shall be inspected, examined, and tested for tuberculosis only at such time or interval as may be required by the Department of Agriculture; provided, further, that in case of emergency permission may be granted by the Department of Agriculture to any person to sell milk and cream from untested cows when such milk and cream is properly pasteurized before being offered for sale. No prosecution shall be filed for the sale of milk or cream from untested cows until ample opportunity has been given the owner of said cows to have them tuberculin tested as required, provided the milk and cream so sold is not otherwise in violation of the provisions of this act. Milk and cream used by a creamery or dairy for the manufacture of butter, ice cream of [or] any other dairy product shall be pasteurized by a method approved by the Department of Agriculture before or during the process of manufacture. No person, firm or

corporation shall operate, maintain and conduct a dairy without first securing a certificate of registration therefor. Such certificate of registration shall be obtained from the Department of Agriculture upon payment of a fee of two dollars (\$2.00). The license shall be issued to such person by the Department of Agriculture or its secretary when the applicant has passed a satisfactory examination in person and proved by actual demonstration before an inspector or authorized agent of the Department of Agriculture that he is competent and qualified to conduct the Babcock test for butter fat. Each license shall be valid for one year after its issue and shall not be transferable. The fee for such license shall be two dollars and shall be paid to the Department of Agriculture or its authorized agent before such license shall be issued. Any wholesale druggist may sell to any registered pharmacist owning or conducting a retail drug store, or actually employed in a retail drug store, pure ethyl alcohol and alcohol treated according to some formula permitted by the United States Commissioner of Internal Revenue so as to render it unfit to be used as a beverage. (C. S. 1922, § 3251.)

152. Ethyl Alcohol; Permits.—Any resident of this State or in any corporation authorized to transact business in this State owning and operating a plant for such purpose, and paying special taxes levied by the United States Internal Revenue Department, may upon compliance with the requirements herein provided, manufacture and sell in or out of the State ethyl alcohol for medicinal, mechanical, scientific and other nonbeverage purposes. Such sales in the State, however, to be made only to wholesale and retail druggists, scientific institutions, and hospitals authorized under the provisions of this act to handle such ethyl alcohol.

Except as permitted in this section it shall be unlawful for any person to manufacture any intoxicating liquor or to own, maintain or have possession of any still, or equipment for the manufacture of alcohol or whiskey or of any mash or intoxicating liquor in any stage of manufacture, or any intoxicating liquor after it has been manufactured, except in compliance with the terms of this chapter, as to manufacture and as to obtaining a permit therefor. Any person who shall manufacture intoxicating liquor in violation of this chapter or who shall have possession of any still or any part thereof or of any other equipment for making intoxicating liquor or who shall have in his possession any mash or other material being used in the process of manufacturing intoxicating liquor, or who shall have in his possession any intoxicating liquor made by him for the purpose of sale, or from which a sale has been made, contrary to the provisions of this chapter, shall, upon conviction, be fined not less than \$500 nor more than \$5,000 and imprisoned not less than thirty days nor more than one year in jail for each offense.

None of the provisions of this section and none of its penalties shall apply to persons who have obtained a permit from the United States for the manufacture of ethyl alcohol, and who have filed a certified copy of the same with the Governor as provided in this chapter. (Id. § 3252.)

153. Retail Druggists; Pharmacist.—Any registered pharmacist, as herein described, may keep pure ethyl alcohol to be used by him for scientific, mechanical and medicinal purposes only and may sell and keep for sale alcohol so treated according to some formula permitted by the United States Commissioner of Internal Revenue so as to render it unfit to be used as a beverage.

Registered pharmacists, as hereinbefore described, may make uses of pure ethyl alcohol such as are permitted by the United States Commissioner of Internal Revenue without paying the special revenue tax as retail liquor dealers. Every retail druggist or registered pharmacist, to whom a permit has been issued in accordance with the provisions of this act, shall within ten days after the first day of each month make and file with the county clerk of the county in which such business is conducted, a report in writing, duly verified under oath, setting forth the amount, kind and value of all intoxicating liquors in their possession and all purchases made by them of intoxicating liquors, during the month immediately preceding. (Id. § 3253.)

154. Same; Reports by.—Within ten days after the first day of each month manufacturers and wholesale druggists selling intoxicating liquor as in this act provided, shall make and file with the Governor a report in writing duly verified, on forms furnished by the Governor setting forth the amount, kind and value of all intoxicating liquors in their possession, and all their transactions, purchases and sales of intoxicating liquors, during the month immediately preceding, setting out the name and locality of the purchaser and kind and quantity of liquor sold and the value of their total stock of merchandise then in trade. (Id. § 3254.)

155. Permits, Fees, Penalty.—It is unlawful to manufacture, sell, transport or have in possession any intoxicating liquor in any case which now requires a permit from the United States without the party having such permit first filing a certified copy thereof in the office of the Governor, fee for which shall be \$2.00, and when such permit is so filed no permit from the State shall be necessary. All fees collected by the Governor shall be paid by him into the State school fund. Possession of a permit from the United States, a copy of which is not filed as herein provided, is *prima facie* evidence that the party holds such permit for

the purpose of violating the laws of Nebraska. Any conviction under this chapter, or under the laws of the United States prohibiting intoxicating liquors, shall cancel such registration of permit in the office of the Governor, and the person to whom such permit is issued shall not thereafter manufacture, sell, transport or possess any intoxicating liquor, and to do so shall be a violation of this chapter. Any person may file a petition with the county judge of the county where such business is operated alleging that the holder is not of good reputation or standing, or alleging that he has violated or failed to comply with the laws of the United States or of the State of Nebraska relating to intoxicating liquor. Upon the filing of such petition [the] county judge shall notify the Governor thereof, and notify the holder of such permit and fix a time, within five days, for a hearing thereon, and if at the said hearing the holder of such permit shall be found not to be of good reputation, standing or character, or be found to have violated any of the laws of Nebraska or the laws of the United States relating to intoxicating liquor, where there has been a conviction in a criminal court or not, a judgment shall be entered canceling the registration of such permit with the Governor and the judge shall so notify the Governor. From the judgment of the county judge either party may appeal as in other cases. The manufacture, sale, transportation or possession of intoxicating liquor under the color of registration of such permit, after the registration of such permit has been canceled either by conviction in the United States courts or the State courts, or by a judgment of cancellation of registration by a county court, shall be a violation of the provisions of this chapter. (Id. § 3255.)

156. Scientific Purposes; Hospitals.—All persons who use alcohol in scientific laboratories or hospitals, and who are exempt from the payment of a United States Internal Revenue liquor dealers' tax therefor, and who have complied with all of the conditions required by the United States Collector of Internal Revenue, may purchase from wholesale druggists and manufacturers and keep pure ethyl alcohol for scientific purposes and for use in hospitals. It shall be unlawful for any person who uses alcohol for scientific, laboratory, or hospital purposes, as in this section described, to use or sell any part of such alcohol as an intoxicating liquor or to make therefrom any intoxicating liquor or to sell, give away, or dispose of any ethyl alcohol, or any intoxicating liquor, unless it has been so treated or combined with some other ingredient, or according to some formula permitted by the United States Commissioner of Internal Revenue, as will render it unfit to be used as a beverage. (Id. § 3256.)

157. Physician's Prescriptions.—Nothing in this act contained shall be taken or construed to prevent any regularly licensed and practicing physician or veterinary surgeon from using, prescribing or issuing prescriptions, or compounding and dispensing medicines for his own patients, requiring the use of intoxicating liquors compounded with ingredients, provided the other ingredients with which it is mixed or compounded, are of such character and use in such quantities as to render the same unfit for use as a beverage. All such prescriptions shall be on numbered forms, furnished, dated and signed by said physician or veterinary surgeon, stating specifically the ingredients and the liquor, and giving the name of the person for whom the prescription is issued. All such prescriptions shall be kept on file by the pharmacist or physician or veterinary surgeon filling the same and open to inspection at all times during business hours to the county attorney of the county and the Governor: Provided, that any such prescription issued by any such licensed veterinary surgeon shall, in addition to the requirements above set forth, state the name and names of the owner of such animal for which such prescription is issued. (Id. § 3258.)

159. Provisions Defined.—The provisions of this act shall not be construed to apply to the preparation, sale, distribution, giving away, dispensing or possession of any alcoholic compound, preparation or remedy containing drugs or medicine which does not contain more alcohol than is necessary for the legitimate purpose of extraction, solution or preservation, and which contains drugs, whether singly or in compatible combination, in sufficient quantities to so medicate such compound, preparation or remedy as to make them medicinal preparations or compounds, and to render such compound, preparation or remedy unfit for use as a beverage; nor to mechanical, culinary or toilet preparations which contain no more alcohol than is necessary to dissolve the oils or extract the desired active principles and hold them in solution, provided that such compounds, preparations, remedies, perfumes,

essences, extracts and syrups are not manufactured, bought, sold or dealt in for use as a beverage or intoxicant, and provided further that such compounds, preparations, remedies, perfumes, essences, extracts and syrups are unfit for use as beverages.

None of the articles referred to in this section shall be sold or kept for sale or kept in the possession of any person in bowling alleys, pool halls, places of amusement or soft drink parlors.

Every person who shall sell or give away any patent or proprietary medicine, medicinal compounds, preparations, remedies, perfumes, essences, extracts or syrups which contain sufficient alcohol to be used for purposes of intoxication, knowing or having reasonable ground to believe that such patent or proprietary medicines, compounds, preparations, remedies, perfumes, essences, extracts or syrups are being purchased for use as a beverage shall be deemed guilty of a violation of the provisions of this chapter.

Every druggist or other person who shall sell or give away proprietary medicines which contain sufficient alcohol to produce intoxication, shall be required to register in a book kept for that purpose the name and address of the person obtaining the same, the date of the sale and the quantity sold or given away; which register shall be kept open to the inspection at all times, during business hours to [of] the Governor, county attorney of the county or any other peace officer. Failure to make proper entries therein shall constitute a violation of this act. (Id. § 3260.)

160. Violation, Penalty.—Any person who shall, by himself or through his agent, violate any of the provisions of this act, shall, except where another penalty is otherwise expressly provided, be deemed guilty of a misdemeanor, and upon conviction thereof shall, for the first offense, be fined the sum of one hundred dollars, or be imprisoned in the county jail not less than thirty days nor more than sixty days, and for the second offense shall be imprisoned in the county jail not less than sixty days nor more than ninety days, and for the third and all other subsequent offenses shall be guilty of a felony and shall be imprisoned in the penitentiary not less than six months nor more than two years, and shall in all cases pay the costs of prosecution.

For sealing or marking each beam, ten cents (10c.); for sealing or marking measures of extension, ten cents (10c.) per yard or fraction thereof, not exceeding fifty (50c.) cents for any one measure. For sealing or marking liquid or dry measures ten cents (10c.) for each measure; for measuring pumps or automatic tanks of one gallon or less, twenty-five cents (25c.); for measuring pumps or automatic tanks of over one gallon, fifty cents (50c.); and for linear measuring devices, fifty cents (50c.); for sealing or marking each weight, five cents (5c.); for the inspection of any weighing or measuring device not listed in this section, the Secretary of Agriculture shall have the authority and power to fix a fee. The tag shall be displayed prominently on the front of the weighing device and the defacing or wrongful removal of such tag shall be deemed a misdemeanor. Absence of the license tag shall be prima facie evidence that the weighing device is being operated contrary to law. Any person desiring to secure said license shall make application therefor upon blank to be furnished by the Department of Agriculture.
